Jon Milner II

Software Engineer , The Walt Disney Company
Orlando, Florida, United States

Summary

In 2019, I started my Disney journey as a lifeguard at Blizzard Beach, keeping the waves in check and soaking up the fun. Three years later, I returned for a second round at Typhoon Lagoon, proving I couldn't stay away from the magic. Working for The Walt Disney Company was always a childhood dream, and in June 2022, it became reality when I joined as a software engineering intern right after graduating from LSU (Geaux Tigers!) with a computer science degree. Four months later, I transitioned to a full-time role, and now I'm thrilled to be building what I hope is a long and exciting career with Disney.
